December 2015 | Celebrating 20 years since the foundation of Venice International University:

We are very proud that we have reached an important milestone in the history of VIU.

VIU's role as a consortium is to provide an innovative platform for transnational education, to build awareness across borders, encourage participation and promote international cooperation. The international body of bright students and distinguished professors creates a rich and exciting interdisciplinary atmosphere.

In 1995 there were five Member Universities and two Institutional Partners; today we have fourteen member universities and three institutional partners. The programs have evolved and grown over the years, and we approach this anniversary knowing that we have enriched the lives and careers of the young, talented minds of so many students who have disembarked from the linea 20 at San Servolo, thus contributing to the dissemination of knowledge and international understanding.
