Training and consultancy project aimed at the entrepreneur community of the Cacak Area - Serbia

The project aimed at activating institutional and consultant aid oriented to the Serbian private sector through the cooperation between North-Eastern Italy and the Serbian Cacak area (2005). The Cacak municipality had been offered courses and training activities regarding the development policies and company organization and management, together with consultancy assistance. Results of the project: guide lines to encourage the potential development of the area; attract international investment; encourage the development of the local companies; creation of technological infrastructures in order to improve the communication efficiency; promote cooperation with Italian companies.
