

CURRICULUM VITAE

Sonia Silvestri

Nicholas School of the Environment
Durham, North Carolina 27701
919-684-2731; sonia.silvestri@duke.edu
cell. 919-699-6649

Place and date of birth: Padova (Italy), January 11, 1972

Visa status: green card holder

Education

- Post-Doc, Department of Hydraulic, Maritime, Geotechnical, and Environmental Engineering, University of Padova, Italy (2002)
- PhD in Environmental System Modelling, University of Padova, Italy (1998-2001)
- Laurea in Environmental Sciences, University of Venice, Italy (1997)

Research and professional experience

- 2015-present Adjunct Assistant Professor, Nicholas School of the Environment – Div. of Earth and Ocean Sciences, Duke University, Durham, North Carolina, USA.
- 2014-present Director of the Nicholas School Summer Program in Venice “Environmental Management in a Changing World: Coping with Sea Level Rise”, Venice (Italy).
- 2013-2015 Visiting Assistant Professor, Nicholas School of the Environment – Div. of Earth and Ocean Sciences, Duke University, Durham, North Carolina, USA.
- 2011-2013 Research scientist, Nicholas School of the Environment – Div. of Earth and Ocean Sciences, Duke University, Durham, North Carolina, USA.
- 2001-2011 Coordinator of remote sensing monitoring of the Venice lagoon – Venice Water Authority, part of the Italian Ministry of Infrastructures and Transports – Consorzio Venezia Nuova.
- 2008-2011 Co-founder and Managing Director of the M.A.R.T.E. Ltd. company specialized in environmental monitoring, GIS data analysis and remote sensing (10 employees).
- 1998-1999 Visiting Scientist, Environmental Systems Science Centre (ESSC-NERC), Reading, UK.

Teaching experience

- 2014-present “Monitoring and Management of Coastal Wetlands, Lagoons and Estuaries” within the summer program. Boston University Study Abroad (Venice – Italy). Undergraduate level.
- 2014-present “Environmental monitoring of coastal morphology and water quality” within the summer program “Environmental Management in a Changing World: Coping with Sea Level Rise”, Venice International University (Italy). Graduate level.
- 2014-present “Introduction to satellite remote sensing of coastal areas”. Duke Study Abroad - Venice International University (Venice – Italy). Undergraduate level.
- 2013-present “Coastal wetlands, lagoons and estuaries: environmental monitoring and management”. Duke Study Abroad - Venice International University (Venice – Italy). Undergraduate level.
- 2012 spring “Remote sensing of Coastal Environments” - Nicholas School of the Environment and Civil and Environmental Engineering - Duke University. Graduate level.
- 2012-2013 “Introduction to Satellite Remote Sensing” - Nicholas School of the Environment and Civil and Environmental Engineering - Duke University. Undergraduate level.
- 2010-2011 Seminar series ‘Hydrological applications of Remote Sensing’ within the course ‘Hydrology’ for Civil and Environmental Engineers – University of Padova, Italy. Graduate level.
- 2007-2011 Seminar series ‘Applications of Remote Sensing and GIS to landfill management and control’ within the course ‘Solid waste management’ for Environmental Engineers – University of Padova, Italy. Graduate level.
- 2001-2005 “Historical and epistemological fundamentals of environmental sciences”, Inter-regional Qualifying School for middle and high school teachers, Ca’ Foscari University, Venice, Italy. Graduate level.

Current Research Projects

- Leader of the team “DAG4Peat” selected for competing in the Indonesia Peat Prize (Packard Foundation).
- Remote sensing of mangroves spatial dynamics under increased nitrogen availability and lower salinity conditions. In collaboration with Utrecht University and the Smithsonian Environmental Research Center, 2014-2016.
- Bass Connection – Duke University. The Digital Landscape: New technologies to visualize ancient landscapes, 2014-2016.

Main Research Interests

Multispectral and hyperspectral remote sensing applications and LiDAR data analysis applied to the modelling of environmental processes as for example:

- coastal vegetation distribution and tidal systems morphology
- shallow water quality and suspended sediment concentration retrieval
- coastal water temperature dynamics
- soil type and hydrology

- soil contamination detection
- Carbon sequestration/release in coastal environments with implications for climate change
- Salt marsh vegetation ecology and interaction with marsh morphology
- Salt marsh evolution modelling
- Geospatial multi-criteria analysis
- Mosquito populations dynamics

Student advising

- Fateme Yousefi, PhD, Duke University. 2013- present
- Laura Elsler, MS, Graz University. 2014-2015
- Maartje Oostdijk, MS, Utrecht University. 2014-2015
- Xiaochi Zhou, PhD, Duke University. 2013-2015
- Mattia Pivato, MS, University of Padova. 2013-2014
- Yun Jian, PhD, Duke University. 2011-2014
- Valeria Volpe, MS and PhD, University of Padova. 2008-2012
- Monia Omri, MS, La Sorbonne University, Paris. 2004-2007
- Fabio Corbani, PhD, Ferrara University, 2002-2003
- Stefania Tesser, MS, Ca' Foscari University, Venice. 2003
- Laura Bravin, MS, Architectural University of Venice. 2003
- Stefania Salviato, MS, Ca' Foscari University, Venice. 1999-2000
- Maria Teresa Cibien, MS, Ca' Foscari University, Venice. 1998-1999
