

VIU's excellence policy guarantees that its teaching, training, vocational and support structures are of sufficient quality to satisfy over time the needs and expectations of all those concerned with the long-term educational outcomes of university training.

The adoption of the UNI EN ISO 9001:2015 quality management system is therefore consistent with the objective of reaching and maintaining a level of performance that satisfies the requirements of all the stakeholders.

VIU also strongly believes in the importance of clearly defining the values and principles that guide its activities and has therefore adopted an "Organizational, Management and Control Model, in accordance with Legislative Decree no. 231 of June 8, 2001" from which the VIU Code of Ethics ultimately derives.
