ARPAV appointed VIU as scientific and academic partner to support its strategies of the development of the Information System according to the Guidelines so called "Linee Guida dalla Società dell'Informazione 2007 - 2010".

A strategic plan has been defined with the following objectives:
definition of the triennal strategic plan (2008/2010); definition of the annual plan; monitoring and updating of both plans according to the operative actions carried on; analysis and research of case studies, trends, benchmarking with other institution to better orient the ARPAV strategic decision to take. Development and definition of the governance model; diffusion of results; support of pilot projects and innovative actions; fund raising at a national and international level; monitoring of European call for applications
