

The [Research Internships and Mobility program](#) is directed to students in any discipline in the second year of their Master's degree registered in any of VIU Member Universities and taking at least two courses at VIU within the Spring term 2017.

Qualified candidates who are interested in developing a research project for their final thesis on topics related to the courses of the Globalization Program can compete for the research internships at one of the member universities and other excellent host organizations with whom VIU has signed bilateral agreements. Successful students receive scholarships to contribute to their travel and living costs abroad.

The research internships and the mobility programs are for two to four months and start and end dates are fixed in collaboration with the host organization, depending on the projects pursued.

Students will be selected at the end of their semester at VIU by a committee that will take into account the advice of the Professors teaching courses.
