

On the occasion of the World Water Day, March 22, VIU answered to the invitation by UNESCO to launch the United Nations World Water Development Report (WWDR) 2017 titled "Wastewater: The Untapped Resource".

A discussion with key stakeholders of the Water Management sector in the Veneto Region will follow with international students of VIU and Ca' Foscari International College.
The event is open and welcomes citizens and all those interested in knowing more about the many possibilities for (Re)Using Water, the technologies adopted in our city to guarantee Water Quality, and the way to transform Wastewater into a resource and not a war/health threat.

Venue
Venice International University
Isola di San Servolo
5 pm, room 9A.

Participants
Carlo Giupponi, VIU Dean, Moderator
Andrea Razzini, CEO, VERITAS
Stefano Della Sala, Director, Water Quality Lab, VERITAS
Guido Zilli, Quality and Sustainability Manager, Dani S.p.A.

The full WWDR 2017 is available in English and French.

Side publications are available in English, French, Spanish, Arabic, Chinese, Russian, Italian, Portuguese, and German.

All material will be available for download free of charge at www.unesco.org/water/wwap/wwdr after March 22, 2017.
